

**1. the first group,
on the directions**

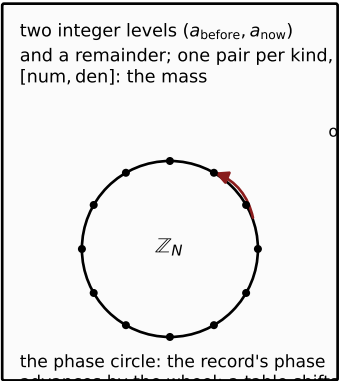

the six Ports, the face centres;
the 48 signed permutations, the
24 rotations the group of order 24

the same six Ports
along a body diagonal:
the hexagon; the cubic
pattern of the dispersion

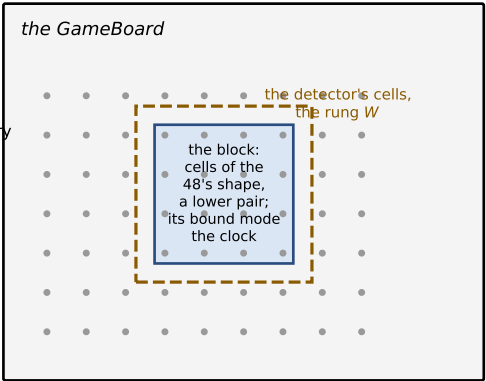

the band from the group and the pair; the tables from the circle; the clock from the block; the click from the rung

**2. one Node: the record,
the second group**

on every
cell

**3. the block on the board,
the rung around it**

4. the click

the quadratic form of the record's values in the
cells crosses W : one click, in the detector's own
count, with the record's birth stamp; one per record,
its completion one gather over its detectors
