

the six Ports: the cube's group, 48;
its rotations, 24; the octahedron, the front

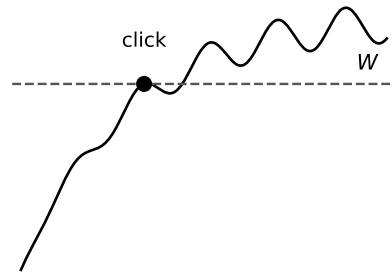

along a body diagonal:
the hexagon, the cubic pattern

on the board: the block, a cube of cells,
the phase circle $\mathbb{Z}_N$ its clock; the rung W around it

the click: the quadratic form
crosses the rung, one per record

$X^2 + Y^2$ in the cells, against the count
